 Department of Education – Division of Bohol

Dear Dr Bongalos:

Good day!

Save the Children through its Bohol Program Office would like to thank you and all DepEd partners as we continue to implement the PHL Prudence School-based DRR project. In July, the project provided support to all schools in Maribojoc, Loon North and South District through One-day Planning Workshop on the Integration of Risk Reduction and Resilience Program, Projects and Activities in the New School Improvement Plan for 2016-2018. Likewise, District Schools and Children DRRM Groups Meeting were also conducted. The Children DRR Groups also presented their respective Seed Grant Project progress report. In parallel sessions for Children's DRR Groups while the school heads and DRR focal persons had the SIP Workshop, the Children DRR Groups elected their new set of officers per district and came up with their action plan for School Year 2016-2017. Please see attached sheets for the Children's DRR Groups action plan per district.

In line with the Children's DRR Groups action plan, they would like to proactively involve in risk reduction and resilience (RRR) and climate change adaptation (CCA) activities. Part of their action plan is to have follow through activities including children's monitoring and progress reporting coordinated at district level. Thus, the Children DRR Groups requested and would like to convene on the following schedules;

Date	Time	Venue	Children's DRR Group
August 10, 2016	2:00 pm	Maribojoc Central ES Student's DRRM Laboratory	Maribojoc Children's DRR Groups

August 11, 2016	2:00 pm	Loon South Central Home Economics Building	Loon South Children's DRR Groups
