BOHOL PROVINCIAL FEDERATED PARENTS TEACHERS ASSOCIATION

April 16, 2019

To: All Municipal Federated PTA Presidents
Thru Public School District Supervisor
Principals / School Heads
Province of Bohol

Greetings!

The **Bohol Provincial Federated Parents Teachers Association Inc.** received a letter from **Provincial Health Office** that . mass media today mention about the incident of dengue that has multiplied mortality among the population particularly the children. Actually, even older members of the population had been affected by this dreaded disease, causing alarm among health authorities . This should be everybody's concern, because if we do not do something to about the situation , people especially young ones will suffer.

Marginalized members of the community live in slum areas. Congestion in these areas also promotes unsanitary living conditions, where breeding places are found. The unsanitary conditions promote multiplication of mosquitoes that harbor the dengue virus. Due to lack of knowledge of these people about the nature, and hazards brought by these mosquitoes, more dengue cases are being reported. It is therefore important that we educate and enlighten our people about the cause and control of dengue.

In this connection, the Provincial Health Office would like to invite the District/Municipal Federated President or any representative in the following Municipalities:
