RE : PLART COMPETITION

DATE : October 5, 2020

1. Attached is the Letter with flyer from Blue Initiative Team campaigning schools to join an initiative to promote upcycling of plastic waste. This Office interposes no objection to the request for support to join the competition to any interested schools, PROVIDED that the activity is purely voluntary.
2. Widest and immediate dissemination of this Memorandum is desired.

deped.bohol@deped.gov.ph

Dear Bianito A. Dagatan,

Greetings from Blue Initiative!

We are a youth-led organization based in Cebu that encourages the youth to be pioneers of change. We are working in affiliation with One Ocean Global and Project SWAP, a National Geographic Young Explorer project. SWAP stands for Sustainable Waste Action Program, and their aim is to combat pollution through the promotion of *upcycling.

*Upcycling, also known as creative reuse, is the process of transforming by-products, waste materials, useless, or unwanted products into new materials or products perceived to be of greater quality, such as artistic value or environmental value.

Your school is cordially invited to participate in a *Plart* Competition with the theme: Philippine flora and fauna. *Plart* is the fusion of plastic and art that encourages the upcycling of solid waste. This competition is a great opportunity for students to incorporate sustainability into art while promoting the conservation of Philippine biodiversity.

This competition is open to all ages and will be open for registration from September 30 until October 10. Attached is a file containing the details and deadlines of the competition. Should you have any questions, clarifications, or recommendations, feel free to contact us through email, text, or direct message.

We hope to be able to showcase your students' creative abilities and await a favorable response!

Best Regards,

Blue Initiative Team
