Data Analytics using RStudio In-depth Training Workshop - January 18 to 20, 2023 (PHP2900.00) via ZOOM

Learning R language will just cost you PHP2900.00 (22 hours of training).

R is being used worldwide. It is used in almost every industry, ranging from finance, banking to medicine and manufacturing. Many international and national companies are adopting the use of R to cater to their data/statistical analysis requirement. Hence, we must learn how to use and understand the basics of R language since it has become ubiquitous in research and management.

R plays a significant role in Data Science. It is excellent for visualization and has far more capabilities as compared to other tools. For data-driven businesses, the lack of Data Scientists is a considerable concern. Companies are using R programming as their core platform and are recruiting trained R programmers. Hence, STRAT One is inviting you to attend our training-workshop titled: **Data Analytics using RStudio In-depth Training Workshop - January 18 to 20, 2023 (PHP2900.00) via Zoom (minimum of 7 hours daily)**. The fee includes: 12% VAT, digital handouts, datasets, digital certificates (of participation, completion, and attendance), recording of the webinar, and the learning experience. **OFFICIAL RECEIPTS will be provided upon payment.**
