BIANITO A. DAGATAN, EdD, CESO V
Schools Division Superintendent
Tagbilaran City, Bohol

Dear Dr. Dagatan:

Greetings of peace and academic solidarity!

The Bohol Island State University (BISU), through its Admission and Scholarship office, is conducting an information dissemination drive of its Admission Schedule, Requirements, and Process through different platforms. Our main target are the Senior High School students as they will soon transition to college life. As the only State University in the Island Province of Bohol offering quality higher education, BISU aims to accommodate and educate deserving students who wish to pursue collegiate level for intellectual growth and development of lifelong skills. With its six satellite campuses offering different programs responsive to the need of the local and global community, students have many courses to choose from and a great opportunity to be one of the "Iskolars ng Bayan."

Thus, we are humbly asking your good office to help us disseminate this salient information to the different Senior High Schools under your jurisdiction especially to those distant schools, and help the interested students who wants to apply for BISU to comply the needed documents for Admission application.

The Admission application will run until **March 6, 2023** through **admission.bisu.edu.ph**. Upon the approval of the admission application, the applicant will be scheduled for an entrance examination.

We are hoping for a positive response and support from your good office for the benefit of all our students. Should your office want to communicate with us, feel free to contact us through the Admission and Scholarship office contact number (0985)117-6758.

Attached are the list of requirements necessary for Admission and list of programs offered in BISU.

Thank you very much!

Respectfully yours,

JOECEL U. VALLENTE, MA
Director, Scholarship and Admission
Bohol Island State University

ABOUT BISU

The BOHOL ISLAND STATE UNIVERSITY (BISU) was born on October 14, 2009 after her excellency Gloria Macapagal Arroyo signed into law Republic Act 9722, also known as:

"An Act Converting the Central Visayas State College of Agriculture, Forestry, and Technology, its Units and Satellite Campuses in the City of Tagbilaran and in the Municipalities of Balilihan, Bilar, Calape, Candijay, and Clarin, All Located in the Province of Bohol to be Known as the Bohol Island State University (BISU) and Appropriating Funds Therefor."

Its inception, House Bill No. 5638, was ardently pushed by Representatives Edgar M. Chatto, Roberto C. Cajos, and Adam Relson L. Jala of the first, second, and third districts respectively and by its first president, Dr. Elpidio T. Magante.

Being the realization of the Boholano aspiration, the Bohol Island State University is mandated to primarily advanced education, professional and technological instructions in the fields of allied medicine, education, engineering, agriculture, fisheries, environment, arts and science, cooperative, business and entrepreneurship, technology and other relevant fields of study in the undergraduate and graduate levels. It shall also undertake research and extension services, and provide leadership in its areas of specialization.

Prior to receiving its university status, BISU was formerly known as the Central Visayas State College of Agriculture, Forestry, and Technology (CVSCAFT). It was originally composed of five (5) independent vocational and technical public schools in the province of Bohol, integrated by virtue of Republic Act 8659 signed on June 22, 1998. The composite schools then were the following: The Bohol Agricultural College in Zamora, Bilar; The Bohol School of Fisheries in Congtong, Candijay; The Clarin School of Fisheries in Poblacion, Clarin; The Calape National School of Fisheries in Calunasan, Calape; and The Bohol School of Arts and Trades in Tagbilaran City.

Gaining public trust, the CVSCAFT community grew gradually. In 1998, the Board of Trustees (BOT) approved Resolution No. 2 Series of 1998, integrating the Calape Polytechnic College, established in 1992, in Poblacion, Calape to the CVSCAFT System.

The birth of BISU also gave birth to its sixth and youngest satellite campus. The Balilihan Campus was formerly an extension class of the Tagbilaran City Campus. The same law that converted CVSCAFT to BISU, categorically declared Balilihan as one of the satellite campuses of BISU.

As one of the leading institutions in the Central Visayas, BISU served not only the Boholanos but also those from neighboring provinces in the Visayas and Mindanao. It continually performed well in board examinations and produced many topnotchers over the years. Many of its graduates became community leaders, managers and directors in corporate organizations, experts and consultants in various technological fields, and administrators in many educational institutions.

Today, Bohol Island State University is geared to pursue the culture of excellence, cultivated by its proud past, guided by its mandate, and directed by its vision and mission.

VISION

A premier Science and Technology university for the formation of world class and virtuous human resource for sustainable development in Bohol and the Country.

MISSION

BISU is committed to provide quality higher education in the arts and sciences, as well as in the professional and technological fields; undertake research and development and extension services for the sustainable development of Bohol and the country.

GOALS

To deliver its mandate, BISU is directing all its efforts towards excellence guided by its foresight. To address the needs of the strategic sectors, BISU shall:

- Pursue faculty and education excellence and strengthen the current viable curricular programs and develop curricular programs that are responsive to the demands of the times both in the industry and the environment;
- Promote quality research outputs that respond to the needs of the local and national communities;
- Develop Communities through Responsive Extension Programs;
- Adopt Efficient and Profitable Income Generating Projects/Enterprise for Self-Sustainability;
- Provide adequate, state-of-the-art and accessible infrastructure support facilities for quality education;
- Promote efficient and effective good governance supportive of high quality education.
