Development Bank (ADB) which aims to assess and examine the installed equipment in the selected school beneficiaries.

The project was conceptualized in 2020 to build the capacity of the Department in facilitating distance education by developing digitized learning materials, providing training to teachers on EdTech, and piloting EdTech solutions and infrastructure to ensure that the learners have access to quality education. In addition, the ADB extended the project until September 2025 which focuses on strengthening EdTech interventions, including the installation of Starlink network equipment.

The field monitoring visits will be conducted in SDO Bohol as part of the ADB's initiatives, to assess the performance and functionality of EdTech equipment, identify any issues during the project's implementation and provide further support as needed for the following schools:

1. **San Jose High School (Island School)**
2. **Sto. Rosario Integrated School**
3. **Calabacita National High School**
4. **Danahaw Integrated School**
5. **Cambansag High School**

In light of this, endorsement of the said activity in the aforementioned schools and necessary logistical arrangements and assistance are being requested for smooth implementation and ensure the safety of the ADB officials. Further, the final itinerary as submitted and agreed from the most recent coordination meeting is included in this memorandum.

For any concern and additional information, your staff may coordinate with the Project Management Service – Project Management Division through email: pms.pmd@deped.gov.ph or tel. no.
